Dear Mr. Casey R. Furlong:

Earthmovers, Inc. was issued a Title V permit on July 30, 1999 for a stationary municipal solid waste landfill. [326 IAC 2-7-5(15)]  
This stationary source also includes the following insignificant activities, which are specifically regulated, as defined in 326 IAC 2-7-1(21):
- (a) Space heaters, process heaters, or boilers using the following fuels:
    - (1) Propane or liquefied petroleum gas, or butane-fired combustion sources with heat input equal to or less than six million (6,000,000) Btu per hour.
  - (b) Combustion source flame safety purging on startup
  - (c) A petroleum fuel, other than gasoline, dispensing facility having a storage capacity less than or equal to 10,500 gallons, and dispensing less than or equal to 230,000 gallons per month.
  - (d) Paved and unpaved roads and parking lots with public access.
  - (e) **An air stripper treatment system.**
